DIV OF OIL GAS & MINING

Subject: Mining Amendment for Dove Creek Quarry, and State Cessation Order No. MC-05-01-07(1) Dove Creek Quarry (M/003/016), Box Elder County, Utah

Dear Mr. Kunzler:

After meeting with Scott Nannenga and Steve Flock of the Forest Service and yourself on Thursday the 24 of Aug, it is my understanding that with the approval in two weeks of the new mining plan submitted by Bill Bown of Bonneville Quarries for the Dove Creek Quarry and with the bond in hand, we will be in compliance. Will you keep me up dated on the completion of the permit? I believe it will come through your office next? This area of disturbance is, to my understanding in the new permitted area.

To help cover the expansion of the Deeded quarry area, I would like to request a Hydrologist to inspect the drainage swell to the north of the deeded property. I need to get it looked at before we can get approval on the Deeded Quarry portion.

I am sending this letter to Daron Haddock, the Assessment Officer, for under the circumstances it is my belief I have done all I can to finial the matter in regards to the Cessation Order No. MC-05-01-07(1). I would hope that the Forest Service acceptance of the Permit covered the disturbed area, and their closer in two weeks will show that Dove Creek Quarries is not negligence, but determined to keep in good standing on all levels of the M/003/016 Permit.

Thank you for your understanding.

Jerry Cates
